Another Wonderful Neighborhood Picnic

By Ellen Hagan

In September the back deck at Chris Owen's house was packed with about 70 Cement Hill folks for the annual Neighborhood Picnic. I saw smiling faces and animated talk - people happy to see one another. The food was delicious and the program informative. Eve Collins has made a video which is available at https://www.youtube.com/watch?v=x_gq5CtkcqA.

Eve Collins, Carl Plaza, Terry Wagner, Debbie Wandro, and myself are the picnic committee and have many people to thank. I apologize in advance to anyone I've inadvertently

left out. Thank you, Chris Owen, for letting us use your home and for being a perfect emcee. Flour Garden again donated the delicious cake we serve as dessert. We thank Eileen Jorgensen, Beth Enoch, Spencer Le Gate, Joanne Brown, and Ryan Owen for helping set up and all those people who stayed after and helped stack tables and chairs for pickup. Our dessert crew was Eileen Jorgensen and the Jacobson's granddaughter Isa. Peter Van Zant loaned us the microphone system.

We appreciate the participation by our speakers. Joanne Drummond, Executive Director of the Firesafe Council, spoke about the importance of ingress and egress for fire fighting

A Word From The New GCHNA President

Uli Paulin

There is good news about the state of GCHNA. For a brief moment it looked like we may not have the resources to fill the most important roles for our organization in order for us to continue. Then, Susan

equipment. We should make it easy for the fire department to get to our property. The drought and bark beetles have severely compromised forest health. Thinning is one of the best things homeowners can do to protect their trees. The timing of cutting is important. Plan the work for this winter. Nevada County has declared a State of Emergency in our county which means more funds will be available for forest clean up. \$250,000 has been made available from the fire tax collected. Carl Plaza was recognized for his efforts in putting up the Fire Danger signs along the road.

Nancy Weber, our NID representative, explained that there is enough water in storage for 2017 unless the state takes some away. NID is exploring the benefits and costs of the Centennial Dam on the Bear River.

Heidi Hall will begin her duties as the new District 1 County Supervisor in January. She's particularly interested in fire safety and continued coordination on the homeless problem including mental health, addiction, and poverty. She'll encourage an inclusive process regarding cannabis regulation and hopes our county will be in line with state law. She supports the arts and local food accessibility. She's supportive of walking trails in the community.

Carolyn Sherwood who lives on Applewood Lane won the door prize and will receive \$250 worth of weed-eating from Luna's Landscaping. Thank you to all who attended the picnic and to those who are active in support of GCHNA's efforts. See you at next year's picnic!

Wiesner was willing to step into the role of Treasurer, which she has filled so competently in the past. Together with Susan and our Secretary, Ellen Hagan, I felt comfortable to become President of GCHNA. Susan, Ellen and I are looking forward to working together as the new team of officers, supporting and being supported by the well-tuned steering committee and you, the membership.

To our benefit, there are many dedicated individuals on our various committees. The last picnic was a great success and included a chance to meet our new Supervisor, Heidi Hall. Our fire-wise efforts make us safer and some of us benefit from better insurance rates as a result.

Members receive a significant benefit from our arrangement with Ferrellgas, both on the price of propane and the tank rental. A lot of work goes into our newsletter to keep us up to date on what's important to the neighborhood. So much has been achieved by GCHNA and is worth preserving and building upon over time.

Some issues need to be addressed and we would like to thank our last Treasurer, Joanne Brown, for her work, research and analysis. For 2017 we plan to align our processes and procedures more closely with the existing by-laws, particularly the formalities of holding annual meetings and elections of the steering committee. This organization serves you, the members. The steering committee meetings are open to all, so please use that opportunity to contribute. We are always looking for neighborhood representatives and steering committee members at large. Check out the newsletter for specifics. Where the bylaws are outdated or

do not reflect the realities of the organization, we will suggest to the membership to revise them accordingly. It will be as transparent a process as possible and please support this effort in 2017. We also are in the process of buying liability insurance for board and officers to make sure that those who stick out their necks for the greater good of the neighborhood do not need to worry about taking personal risks.

I feel that with renewed momentum we are in a good place to set new strategic goals. Larry Dulmage and others have suggested improvements to Cement Hill Road for walking and biking. Come to the February 2017 meeting to hear more. And thanks to William Mandel who signed up to ensure our online presence is attractive and up to date.

For those who don't know me, a few words about my personal background: After finishing college in Germany I moved to San Francisco in the 1980s to start a career in technology. By the late 1990s I had learned to visit the Sierras frequently and when a friend introduced me to Nevada City it was love at first sight. Sounds familiar? The escrow on my place closed in January 2000 and I moved here full-time in 2005. I still travel to Europe every year to visit with my family and friends. Some of you have met them on their travels to the US. As of late I've discovered Baja California as a regular winter destination. But home is right here and there's no place like home...

Have a great Holiday Season and thanks to all our neighbors who make this such a great place to live.

Mark Your Calendars!

Note the change in meeting place!

2017 GCHNA Steering Committee Meetings

All meetings are at 7:00pm. This year, the first 4 meetings (through August 7) will be held at the Community Room at the Madelyn Helling Library at the Rood Center off Hwy 49 in Nevada City. We'll announce the location of the last 2 meetings in the next newsletter.

Monday, February 6

Monday, April 3

Monday, June 12

Monday August 7

Monday, September 11

Monday, November 6

We welcome all members and prospective members. Don't forget that GCHNA needs new people on the Steering Committee. Several people have expressed an interest in a walking path along Cement Hill Road. At this time we have no committee to explore the issue. Anyone want to take this on?

Ferrellgas Contract Renewed

GCHNA members value the significant discount we receive on propane because of the arrangement we have with Ferrellgas. Thank you Ferrellgas and Andy Fellman for continuing to provide this benefit. Thank you to Marty Pezzaglia for negotiating the contract for us.

Beth on Fire

By Beth Enoch

Fire Insurance

"...insurance not renewed due to "wildfire exposure" I dropped the letter, not believing our fire insurance could be cancelled without notice on our new house with cement siding, a composite roof, closed soffits, no skylights, a fire suppression system, a 100' of clearance on all sides of the house, a propane tank more than 30' from the house and a pressurized fire hydrant at the end of our driveway!

Beth Enoch

We always felt comforted in thinking that the Hartford will not drop clients who signed up through AARP. Apparently, the small loophole of "wildfire exposure" trumped all the fire prevention techniques we had employed, sending me off onto a frantic journey trying to find someone to write a policy on our house. The Hartford, like other companies, had decided that the risk factor was too high in our area, confirmed by satellite technology, and that underwriters would not write policies. They recommended contacting California Fair Plan, which only covers the fire component,

requiring the homeowner to pick up the balance of coverage on the home, or Lloyd's of London, expensive alternatives.

Luckily, I found an insurer willing to issue a policy on the house with the above features, also within 5 miles of a manned fire station and on a road that allows two fire trucks to pass each other, thankfully. If there is a take away from my journey, it is that we need to continue our efforts as respectful community members to thin trees, clear out the ladder fuels, utilize the chipping program offered through Firesafe, and support the efforts of Sierra Stream and their new grant reducing fuels in Hirschman Pond to not only keep us safe but keep up our property values. If new buyers cannot get insurance, we are all negatively impacted.

Firewise Community Renewal

By Beth Enoch

The Greater Cement Hill Neighborhood is one of 18 communities in Nevada County which have Firewise status under National Fire Protection Association (NFPA). We were recently commemorated for our 5th year demonstrating a measurable level of effort per capita for reducing wildfire risk.

Our Firesafe expenditure in 2015 was \$24,479. Our contribution for 2016 was \$54,010, with \$9,804 from the chipping program and private homeowners clearing respective properties totaling \$32,481. The additional monies came from Scotch Broom pulls, educational outreach, and our annual picnic. Many thanks to the fourteen homeowners, Country Circle Private Road Association, Indian

Firewise continued page 4

Firewise from page 3

Trail homeowners, and the CalFire Washington Crew who all paid for tree trimming, weed eating and brush clearing, contributing to our goal of living in a safer community. We are also grateful for continuing service provided by the Nevada County Firesafe Council.

Please continue to use the GCHNA website, gchna.com, to provide us with data on what measures you have taken to make your property more fire safe. Thanks again to the 14 homeowners who submitted their data in 2016. If you prefer,

you can contact me, Beth Enoch, at enochclan@gmail.com. Please provide your name, street, project work done, hours worked or monies paid.

Newsletter Tip

Emergency personnel have a difficult time finding you at night if your address sign is not reflective. The signs provided by Firesafe for \$35. are all weather, UV resistant metal with numbers printed on both sides. These signs are compliant with 2016 California Fire Code requirements. Holes are predrilled for easy recommended mounting so to be visible from either approach to your home from the roadway.

Remove dead trees and chip. Modify vegetation at least 100 feet from structures.

Thin tree stands as if you needed to drive a wagon through your property.

Plant disease and drought tolerant native species.

Consider ordering a yard waste container from Waste Management for \$5.31 a month (or \$5.50 for a larger container) for disposal of leaves, pine needles, and thinning every other week. Neighborhoods can order up larger containers for neighborhood cleanups.

Unprecedented Tree Mortality in California

By Beth Enoch

The current level of dead trees in California's forests is beyond what we've ever seen. In 2014, there were about three million dead trees. Last year that number jumped to twenty-nine million. The latest survey found sixty-six million dead trees. With the expected loss of 50% of some of our Sierra forests from tree mortality, we have an opportunity and obligation based on the best scientific knowledge.

What can we do besides cutting down the dead trees and planting new ones? We need to take into account the new and expected forest conditions for the future.

More widely spaced trees will decrease competition for water and help larger trees avoid stress. Ponderosa forests of old were described as park-like with large trees spaced far apart (3 per acre). Consider thinning your forest stands now in winter during the bark beetles' less active time.

Diversify your property by species, age, size, spacing and drought tolerant heterogeneous forests to deter bark beetle. If replanting look at predictions for your area and choose seed stock accordingly, knowing that aquifers will decrease as climate change progresses.

Ponderosa, Jeffrey, and Pinyon pines are most impacted by bark beetle but many have just died from lack of water. Other conifer species like white and red fir, as well as cedar and oak, are heavily impacted by the drought. The chips from a bark beetle infested tree are safe to use as mulch because the chipper kills the beetles and smaller pieces of wood are less of a fire hazard while helping to retain moisture. But remember to be Firesafe—no more than 3 inches of chipped bark or needles allowed. If we don't get adequate rainfall, trees can be watered at the dripline in early spring, a preventative measure, but not in summer.

So, what can you do right now to reduce risk for beetle damage and fire hazard?

1909 Tree Coverage.

1997 Tree Coverage. A healthy forest should have 60 trees per acre. Many of our forests today are choked with young trees.

Bob Britts - New Steering Committee Member

I have become involved with GCHNA over the past year and am especially interested in how the

drought has affected Nevada County. I've researched how stressed trees become victims of beetle damage and result in fire damage. I've taken down 15 Pine trees and 5 Oak trees due to Bark Beetles and 5 Cedar trees due to aphids and molds.

Here is a bit about me. I am currently working from home as an Int'l New Business Development Consultant specializing in Allergy Diagnosis and Treatment options. I work with U.S. and International Allergists, allergen extract manufacturers and distributors.

I was the Sales Manager for TriContinent Scientific Inc. here in Grass Valley in 1994 when Hitachi Chemical Diagnostics acquired TriContinent. I moved over to Hitachi's Allergy testing instrumentation as their Pacific Rim and Latin American Sales Manager. Found the science and business fascinating, loved the international travel and the contacts I met.

My wife Edy and I grew up in Menlo Park near Stanford University. She earned her BS and MS in nursing at UCSF, I received a BA in International Business & Finance at S.F. State University. I joined the Navy Flight program in 1965, flew armed helicopter gunships supporting the SEAL teams in Vietnam 1967-68. Continued ac-

tive duty until 1970, married in 1972, while I was flying for the Navy Reserves at Alameda Naval Air Station. I tried the downtown S.F. business world for several years but missed full time flying and the international Life.

1973 - 1980 I flew large 22 passenger helicopters to the offshore oil exploration drilling ships and rigs, living in Malaysia, Scotland, London and Norway. In 1975, Edy's parents retired on Augustine Road, Nevada City. We loved NC, purchased property on Sunrock Road, built the house, I continued commuting every 9 days to Norway. Our son Austin was born in Grass Valley in 1981.

1980 - 1982: Int'l Operations Manager with Erickson Lumber & Airplane Company managing their new helicopter logging project in Indonesia.

1982 - 1987: Operations Manager, a startup oilfield services company in Lafayette, Louisiana. I was acceptable because I was from California a "neutral state" and not a northern state. Sad but true. VP of Western Hemisphere Operations, moved to Houston.

1987: Didn't like Houston or the next stop at headquarters in Connecticut. Returned to Nevada City. I enjoyed a ten year career with Hitachi/TriContinent and, flying private planes from Nevada County airport.

1995: We and several families started Samba Indoor Soccer Arena in Grass Valley in 1995, sold it to the manager. Celebrated 20 years of operation in 2015. I coached and refereed soccer, the referee instructor, Gold country Soccer for 15 years. I enjoy playing tennis, golf, skiing and hiking.

Bob

Greetings Natural History Enthusiasts!

Are you fascinated by the ecology of the Sierra Nevada foothills? Would you like to learn more about the natural history of our home that shows the inner workings of our place? If so we have just the program for you!

Sierra Streams Institute is excited to announce that enrollment for the 2017 California Naturalist Course is now open! This is an adult UC accredited course that runs from March 8th through May 17th, 2017 with weekly classes and 4 half-day field trips throughout the course. If you are interested in learning more about our local Sierra Nevada ecology and natural history or want to take an active role in natural resource stewardship in your community - this is the course for you! Classes are will be held at Sierra Streams headquarters in Nevada City. For more information view our flyer or go to our website at www.cnssi.wordpress.com.

Give yourself or a loved one an unforgettable natural history experience for the holidays (just make sure to check with them first as it is a significant time commitment)!

Join us!

The Sierra Streams California Naturalist Team,
Kelly, Sol, and Chloe

Email us at cnssi@sierrastreams.org.

2017 GCHNA Membership Renewal Notice

A brand new year! It's 2017!! Time to renew your GCHNA membership. Thank you for your support this last year and we hope you continue with us in 2017. Renewal of your GCHNA membership is due February 1st with a grace period until May 1st.. This year included our wonderful annual neighborhood family picnic and our information packed newsletter that is a source of pride for us. The Ferrellgas propane contract, available to our membership, is the envy of many. Steering Committee meetings held bi-monthly avail everyone the opportunity for a voice in the community. To renew or join, please fill out the membership form in this newsletter or use the form available on our website - www.gchna.com - and mail it with your check for \$20 to GCHNA, P.O. Box 1343, Nevada City, CA 95959. Thank you again so much for your support and we hope you will continue supporting your neighborhood association in 2017.

GCHNA Mission Statement

The Greater Cement Hill
Neighborhood Association is
chartered to:

- Protect and preserve the rural qualities of our neighborhood by providing a forum for group action as needed.
- Communicate information quickly and efficiently about matters of neighborhood interest to its members and associates.
- Raise funds and supply volunteer labor for projects that enhance or improve our neighborhood.
- Be an organization through which our neighbors can meet and get to know each other in meetings and social gatherings.

Membership Guidelines

Fiscal Period is
January 1st - December 31st

Membership Dues due by
February 1st Grace period to May 1st

Anyone may join anytime during the year but will have to negotiate with Ferrellgas if joining after May 1st.
